

PAUL CHAUVEAU

Cybersecurity job applicant

Personal Information

 10/01/2001, 17000, La Rochelle
 French Nationality
 12, bd Monplaisir, 31400, Toulouse
 chauveaupaul17@gmail.com
 linktr.ee/paul_chauveau_33

Technical Skills

> Python, Bash, Powershell
 C, C++, Java, Assembly ARM/x86-64
 GNU/Linux (Debian based distros.)
 Windows OS, Microsoft 365 suite
 QEMU, VirtualBox, Unicorn, Docker
 Git, Visual Studio Code, SSH
 L^AT_EX, Markdown, HTML, Doxygen

Soft Skills

 Teamwork, Collaboration
 Curiosity, Initiative
 Organization
 Driving License (Category B)

Languages

 French: Native
 English: B2/C1 - trips in the UK
 German: A2 - travelled to Berlin

Hobbies

 Cycling
 Hiking
 Programming
 Film
 Literature

EDUCATION

Cryptology and Computer Security

UNIVERSITY OF BORDEAUX SEPTEMBER 2023 – PRESENT
Master's 2 in Mathematics and Computer Science

System Security:

- Static reverse engineering with *ghidra* and dynamic analysis with *gdb*
- Developing kernel modules for Linux kernel 4.18

Smart Cards and physical security:

- JavaCard security, poisoning JCAsssembly
- Side-channel attacks and fault injection (focused on AES)

Network Security: IPSec, TLS, MiTM - ARP spoofing, Metasploit

Master's 1 in Mathematics and Computer Science (Merit)

Software Security:

- Overflows, memory corruptions, string bugs
- Exploitation with non-executable stack and ASLR

Operating Systems (UNIX) - process and memory management
CPU and GPU parallelism in C: AVX, OpenMP & OpenCL

Gap Year

TALENCE & PESSAC FEBRUARY 2022 – SEPTEMBER 2023
Civic service in an associative recycling organization, Etu'Récup
Campus volunteering, co-vice presidency of the Alt- association

Master 1 in Applied Mathematics (1st semester)

UNIVERSITY OF BORDEAUX SEPTEMBER 2021 – JANUARY 2022
Operational Research and Decision Support – Distinction

Graph algorithms, linear optimisation, statistics

Bachelor's degree 3 in Mathematics

UNIVERSITY OF POITIERS SEPTEMBER 2020 – MAY 2021
Mathematics and Computer Science Pathway – Distinction

Design patterns, databases, Symfony (PHP framework), English
Game development project in a team of 5 with Godot

WORK EXPERIENCE

STMicroelectronics

CSI Master's final internship

LABÈGE (TOULOUSE) MARCH 2025 – AUGUST 2025

- Writing a fuzzing grammar for bootloader inputs (MCUBoot)
- ARM embedded system security and exploits

Credit Agricole GIP

One-day immersion at Secure Operation Center

GRADIGNAN (BORDEAUX) NOVEMBER 2023

- SIEM systems, IOC parsing, malware reverse engineering

XLIM Laboratory, UMR CNRS 7252

Bachelor's Internship

POITIERS MAY 2021 – JULY 2021

- Created computer graphics practical assignments in C++

PROJECTS

Solving Company

BORDEAUX AND SURROUNDING AREAS MAY 2024 – PRESENT

- Following ANSSI technical guidelines for website security
- Checking GDPR compliance for health data processing
